REQUEST FOR INTERFERENCE UNDER 37 C.F.R. § 1.604

Sir:

Applicant requests that an interference be declared between the above-captioned application and application serial no. 09/989,910 filed on November 20, 2001 and published on October 3, 2002 (US2002/0144153 A1). The proposed count of the interference is:

COUNT 1

A method for preventing unauthorized use of digital content to be transferred from a server to a client comprising: locating an archive of digital content data at a server; determining transaction data of the client; determining whether the transaction data of the client indicates whether the client is a valid recipient of the archive; and transferring the archive from the server to the client if the client is a valid recipient.

Claims 1 of the above identified application and claim 1 of U.S. Patent Application No. 09/989,910 substantially correspond to Count 1.

An interference is believed to be necessary because the same invention is being claimed in these applications and priority cannot be determined without an interference.

Respectfully submitted,

Steven J. Moore, Reg. No. 35,959
